## Programme

### Day 1 – 10<sup>th</sup> December 2026

|      |                                                                                                                                             |
|------|---------------------------------------------------------------------------------------------------------------------------------------------|
| 1145 | Registration and refreshments                                                                                                               |
| 1200 | Welcome and introductions                                                                                                                   |
| 1215 | Principles of liver surgery                                                                                                                 |
| 1230 | Techniques of laparoscopic liver resection                                                                                                  |
| 1300 | Lunch                                                                                                                                       |
| 1330 | Practical session <ul style="list-style-type: none"><li>- Laparoscopic pringle</li><li>- Use of energy devices</li><li>- Stapling</li></ul> |
| 1430 | Laparoscopic intra-operative ultrasound with practical session                                                                              |
| 1600 | Break                                                                                                                                       |
| 1615 | Laparoscopic management of intraoperative bleeding                                                                                          |
| 1645 | Practical Session <ul style="list-style-type: none"><li>- Use of haemostats</li></ul>                                                       |
| 1730 | Summary and close                                                                                                                           |

### Day 2 – 11<sup>th</sup> December 2026

|      |                                                                                                    |
|------|----------------------------------------------------------------------------------------------------|
| 0845 | Arrival and refreshments                                                                           |
| 0900 | Day 1 session summary & follow up questions                                                        |
| 0915 | Evidence base for laparoscopic liver surgery and MDT case-based discussion                         |
| 0945 | Practical session <ul style="list-style-type: none"><li>- MDT case, liver resection</li></ul>      |
| 1030 | Break                                                                                              |
| 1045 | Tips and tricks for laparoscopic suturing of bleeding during liver resection                       |
| 1100 | Practical session <ul style="list-style-type: none"><li>- Laparoscopic suturing of liver</li></ul> |
| 1130 | Training requirements for laparoscopic liver surgery                                               |
| 1200 | Lunch                                                                                              |
| 1245 | Laparoscopic major hepatectomy setup and port placement                                            |
| 1315 | Laparoscopic right hepatectomy – how I do it and MDT case-based discussion                         |
| 1345 | Practical session <ul style="list-style-type: none"><li>- MDT case, major hepatectomy</li></ul>    |
| 1600 | Close                                                                                              |
